MISSION STATEMENT

The Office for the Aging plans, coordinates and provides an array of community based services to the elderly and persons who require assistance in the long term care system, in an effort to promote independence, dignity and quality of life.

Through its distinctive role of committed advocate and community partner, the agency strives to ensure clients needs will continue to be met now and in the future.

Maintaining the dignity and independence of older adults is the primary goal of the Office for the Aging. This Aging Services Directory is a tool that outlines programs and services vital to the accomplishment of this goal.

We hope this handbook will improve the quality of life for Dutchess County's older adults and those who care for them.

The Office for the Aging (OFA) offers services designed to maintain the quality of life of those age 60 and over. Continuing Care at OFA serves people of all ages in need of Long Term Care Services. The Office for the Aging provides:

- ◆ Direct community-based services to senior citizens.
- ◆ A point of entry into the service delivery system for those eligible for all types of long-term care.
- ◆ A source of referral to other programs, information and services available in the general community.

This handbook is organized following the continuum of care model, a tool used by health care professionals to ensure that the full range of needs required by those 60 years of age and over are met. The handbook is organized starting with community-based services: the nutrition, recreational, and educational opportunities that support older adults in the maintenance of independent living. The handbook then proceeds to the next level of care: sources of in-home care services and programs that support those who wish to avoid institutional placement. The last pages of the booklet contain information about institutional arrangements for those older adults who need a higher level of care.

The Office for the Aging serves all Dutchess County residents 60 years of age and older, their caregivers, and others in the Long Term Care System.

The Dutchess County Office for the Aging is a County Agency funded under Title III of the United States Older Americans Act, the New York State Office for the Aging, and the County of Dutchess.

OFA Friendly Calls

“Friendly Calls” connects Dutchess County older adults with volunteers who call them weekly, speaking for 20-30 minutes and providing all-important social interaction, helping OFA achieve its mission of helping older adults remain active, age with dignity and live independently as long as possible. The purpose of the program is to decrease feelings of social isolation and loneliness, while increasing connectedness which has been shown to increase one’s quality of life.

Volunteers connect with local, pre-screened older adults who have identified an interest in fostering connections with others and reducing social isolation through weekly telephone conversations that cultivate relationships between participants. Volunteers will take part in a one-hour orientation at OFA to learn more about what Friendly Calls volunteering entails.

Following an initial introductory conversation, volunteers will speak 20-30 minutes each week with the older adults assigned to them over an eight-week period. If both participants express interest, they can extend their calls past the initial eight weeks.

“Friendly Calls” volunteers report to an OFA Program Manager, designated to oversee the operation of the program.

To qualify for the program, prospective volunteers must be:

- at least 18 years old;
- an active listener, a good conversationalist and able to speak clearly and slowly if needed;
- interested in meeting a new friend and open to hearing new ideas.

Contact OFA at 845-486-2555 or ledgar@dutchessny.gov for more information.
